

Graphic Designer

Beautiful speakers seek a part time Graphic Designer or a full time intern.

We are now on the verge of conquering the world, and for this journey, we are looking for some of the best, most passionate and dedicated colleagues to join us.

A part time Graphic Designer or a full time intern is a newly established role in the Global Marketing team. The marketing machine is starting to push the throttle hard and therefore the team and the creative lead need a pair of extra hands with a passion for design. The Libratone products and brand are all about creating an outstanding customer experience, looking great while we do so. Therefore, a graphic designer plays a vital role. Our brand is sacred to us, and you will play a key role in helping to ensure that everything from packaging to POS and from website to flyers look great.

You will work closely with our external agencies, as well as our colleagues in the US and China. You will be a part of the marketing department, based in Copenhagen, Nordhavn.

We are a challenger in the market, so we need colleagues who aren't afraid to choose the lesser travelled path in the pursuit of great results.

Main tasks:

- Roll out of campaigns into our channels e.g. Libratone.com, SoMe and retail partners
- Work with internal stakeholders to create graphic materials for ongoing campaigns, both online and offline
- Ensure that all graphic elements are in line with the brand guidelines
- Take ownership of our visual brand identity

Needed experience:

You have a bachelor in design or are in the process of getting one.

We expect you are well versed in InDesign, Illustrator and Photoshop - you might even know all the shortcuts by heart and have a great eye for design. If you have experience with video editing it would be appreciated but it's not a must.

Next step:

Send your application and a portfolio as soon as possible to jobs@libratone.com (state job title in the subject line). The position is to be filled immediately.

For more info, feel free to contact Creative Lead, Torben Slothuus at +45 6166 3607.
